Focus Group Participation

HealthInsight is a nonprofit health care company established in Nevada more than 20 years ago. It is part of a three-state organization (Nevada, Utah and New Mexico) that contracts with the federal government to carry out several efforts centered on improving the quality of health care. These efforts range from prenatal care for high-risk Medicaid moms and improving hospital quality for Medicare recipients to reducing hospital admissions for long-term residents in Nevada's nursing homes.

As part of our 2014/2015 strategic plan for Nevada, priority has been given to increasing consumer engagement (i.e. how active people are in their own health care). **To that end, we are conducting a series of focus groups to discuss how consumer involvement in their own health status might be increased.** We will also address whether a more frequent use of "health coaches" would improve engagement.

If you are interested in participating, please let us know by **Friday, October 24**. Check which session you would be most interested in attending and provide contact information so that we can reach you.

Seniors -- Las Vegas

Wednesday, November 12, 1 p.m. to 3 p.m.

Wednesday, November 12, 3:30 p.m. to 5:30 p.m.
