

Transparency Advisory Group Meeting

January 19, 2016

Welcome and Introductions

Final Report out on Goals 2015

Review of Goals for 2015 TAG

- **By September 1, 2015, evaluate the 2015 APCD data outputs using prior list of preferred clinical reporting measures* and choose two measures to develop into statutorily mandated public reports.**
- **Develop a provider-centric subcommittee to advise on attribution issues provider-clinic and patient-provider by March 2015.**
- One community-based use case (1 actionable project) is fulfilled by APCD data for UPV, Choosing Wisely, or other community collaborative, by October 1, 2015.
- **One data-show and tell event occurs to share uses of DIADS and APCD data to demonstrate community collaboration and drive use of data by December 31, 2015.**
- Fulfill Cycle 3 grant obligations on display preferences and consumer feedback by December 31, 2015.

New Goals 2016

DRAFT Prospective Goals for 2016

TAG to approve a process for office based medical provider data review and feedback for anticipated publication of quality data (106.5) to be published Summer 2016.

TAG to support the successful publication and dissemination of the Total Cost of Care Reports to provider groups by October 2016.

Ensure 5 key groups are aware of and actively soliciting use of APCD data, seeing data requests and use by at least XX from each category: Payers, Researchers, Employers, Quality Improvement entities, Public Health.

Ensure the dissemination of maternity data by facility to public facing entities that can use the data to inform care decisions.

Advance the inclusion of data from the AUCH to better include uninsured patients in the APCD.

Successful advancement of Medicare Data in the APCD: evaluate all options for accessing Medicare A & B data and developing a plan to make that information available to users of the APCD by XXX.

Assess use of APCD to inform public health strategies on controlled substance overprescribing and harm.

Low priority -Dental Data –review and develop use cases for dental data for patient information on dental prices for common procedures for insured patients.

Data Report Updates
