

# Transparency Advisory Group

## October 18, 2016

# Welcome and Introductions

# TAG Goals

1. TAG to approve a process by March 30, 2016 for office based medical provider data review and feedback for anticipated publication of quality data to be published starting Summer 2016.
2. Ensure the dissemination of maternity data by facility to public facing entities that can use the data to inform care decisions by June 30, 2016.
3. Ensure 6 key groups are aware of and actively soliciting use of APCD data; we are seeing more data requests and assessing gaps in the utility to these groups: Payers, Researchers, Employers, Providers, Quality Improvement entities, and Public Health.
4. Advance the breadth of Utah APCD submission data , adding uninsured patient data with FQHC pilot clinics and UHIN as well as successful advancement of Medicare Data in the APCD: evaluate all options for accessing Medicare A & B data and developing a plan to make that information available to users of the APCD by December 31,2016 .
5. TAG to review and develop use cases for dental data for patient information on dental prices for common procedures for insured patients by December 31, 2016
6. TAG to inform the use of APCD data on public health strategies on controlled substance overprescribing and harm by August 30, 2016.

# Final Decision on Quality Measures Feedback from MPS

# Dental Goal Focus Group

# **APCD Data Use Presentation Day (Show and Tell)**
